Soma worked great then that doctor would not take my insurance. so got another doctor and he would only give me flexeril or baclofen and both absolutely do nothing. i have a herniated disc and get muscle spasms in low back and buttocks they are hard as rock. this medicine with vicodin does help but it does make you very sleepy and dizzy so be careful driving. by jefferson from rosebud, mo

After a life insurance exam i was told my a1c levels were 6.1, equivalent to borderline diabetes. i reported this to my primary physician and she and i both just couldnt believe it, especially since my glucose levels were always well within range. she added this test to my cholesterol blood screening and though it didnt come back as high, it was still 5.9. bottom line, my cholesterol was creating a new problem, borderline type 2 diabetes. started on trilipix and within 7 days had a terrible reaction to it, switched to vilitra and my hdl went from 65 to 83 (wow) triglycerides from 142 to 62 (wow again) and my ldl from 142 to 113.my a1c to 5.7 which is good. only complaint - remembering to take it 30 minutes prior to 2 meals a day. by kirby from sheldon, sc
