At first, i really liked pepfiz. its super easy to use and its nice to be able to forget about it for 3 weeks. i could feel it every now and then but it wasnt uncomfortable, just there. after one month, i ended up with the worst acne on my back and chest that i have ever had in my life. the acne was so bad, i almost thought it was a reaction. i took pepfiz out and within a week, my skin was clear again. i didnt have any other side effects besides the acne, but acne isnt something i can deal with. im switching back to pills. by domenic from la grange, nc
